Tina's Wish Benefit Raises US\$1.4M for Early Detection Ovarian Cancer Research

The Honorable Tina Brozman Foundation – better known as Tina's Wish – set a new record by raising more than \$1.4 million for early detection ovarian cancer research at the Foundation's annual benefit dinner on Monday, September 26th at the American Museum of Natural History.

Tina's Wish was established in 2008 by partner Andy Brozman in honor of his late wife, a former chief judge of the U.S. Bankruptcy Court in Manhattan. Since its inception, Tina's Wish has raised more than \$7.5 million toward ovarian cancer research grants and has become the third largest private funding source dedicated to early detection ovarian cancer research. This disease ranks fifth in cancer deaths among women.
