LEADERSHIP COUNCIL
presents

RUNWAY
for
RESEARCH

Tuesday, June 6 at 6 PM • The Altman Building

Tina's Wish funds cutting-edge research for the early detection and prevention of ovarian cancer, and educates women about their gynecologic health through educational initiatives. *Know Early. Know Hope®*. This is our mission. Women and their families deserve to know earlier and have a fighting chance against ovarian cancer. Together we can make Tina Brozman's wish for early detection a reality.

IMPACT SINCE 2008

- *\$20 million raised for 43 scientific research projects focused on early detection and prevention of ovarian cancer.*
- *Hosted more than 60 awareness-building and educational events, reaching over 40,000 individuals.*

“I am not angry about having ovarian cancer. I am angry that I did not know sooner so I could have a fighting chance.”

- TINA BROZMAN, 1952-2007

THE IMPACT OF YOUR SUPPORT

THE NEED

OVARIAN CANCER is the **#1** deadliest gynecologic cancer, largely because there is **NO** effective early detection test

80% of women are diagnosed with **OVARIAN CANCER** at advanced stages

The **5-YEAR** survival rate at an advanced stage is only **27%** compared to a **90%** **5-YEAR** survival rate when diagnosed in **STAGE 1**

YOUR SUPPORT

Makes **9 CUTTING-EDGE** research projects focused on **OVARIAN CANCER** early detection possible in 2022 & 2023

Has enabled us to empower and educate **40K** women about their gynecologic health

Enable **600+** women to participate in our funded researchers' clinical trials annually

Will save **200,000** women's lives globally per year upon completion of early detection screen

RUNWAY FOR RESEARCH

Runway for Research is more than just a fashion show. It is a night of storytelling, fashion and fun where guests learn more about the WHY behind our mission - the ovarian cancer patients, survivors, family members, researchers and doctors - who will all walk the runway.

The goal of *Runway for Research* is to fund two Rising Star Grants. To do this, we need to raise **\$300,000**. Our Rising Star Grants are awarded to young talented researchers with innovative ideas and new approaches to developing ovarian cancer early detection. Our seed funding can have a huge impact on their ability to show demonstrative results and ultimately receive large federal grants to get them to the next level.
